# ISUZU D-MAX

# V-CROSS 4x4

# WHEREVER YOU MAY ROAM

Cruise the city. Wander the wilderness. Tour the terrain. Isuzu D-MAX is tailored to conquer highways, mountains and beyond. Experience the thrilling performance of the beast, enabling you to roam wherever you may.

**1963**

The Isuzu Wasp is released as the 1<sup>st</sup> tray-back vehicle in Isuzu's history

**1972**

The Isuzu Faster is released and exported all around the world

**1980**

Isuzu 'pick-up' or 'KB' is offered in three cab styles: single, space and crew cab

**1988**

A monumental feat saw the Isuzu tray-back vehicle become the widest body in its class

**2002**

The internationally branded Isuzu D-MAX tray-back vehicle is launched worldwide

**2010**

D-MAX impresses with its tough, stylish and fuel efficient model line-up

## AHEAD OF TALES

With a heritage stretching back to 1916, Isuzu Motors has the longest history of any Japanese vehicle manufacturer, producing over 26 million engines to date and spanning light, medium and heavyweight classes.

The "pursuit of people's trust" is the underlying trait of product development at Isuzu. As a matter of principle, the vehicles we manufacture must be worthy of the trust of our drivers. This philosophy guides us in perfecting our technology and creating vehicles with a conscience.

**EMPEROR OF  
ROAM**

# IF LOOKS COULD THRILL

With a commanding stance, the Isuzu D-MAX combines a metropolitan style with tough off-road ruggedness. Pump your style up a notch with the top of the range V-Cross. It is designed to stand out from the crowd; the exterior styling of the Isuzu D-MAX surely has the looks that thrill.

The aerodynamic grille offers a stylish exterior for the powerful D-MAX engine

Projector headlights and DRLs are standard on V-Cross models

LED rear taillights are standard on V-Cross models

Six spoke 18" alloy wheels are standard on V-Cross models

These top of the range roof rails make your 4x4 look top of the line

# BASK IN LUXURY

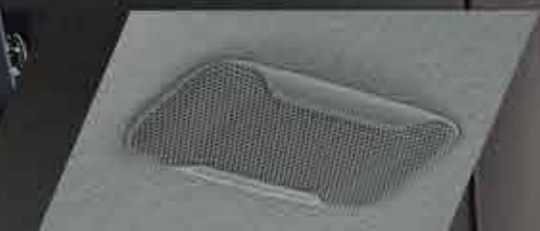

D-Max offers an audio system with Bluetooth connectivity for phone and audio streaming. All models come standard with a touchscreen audio and a reversing camera. Remote keyless entry with power windows is also offered. Behind the powerful exterior of every D-MAX lies a specially tailored spacious cabin for an ultimate luxurious ride.

Ease your drive with a large, nifty 8" touchscreen interface, Flylink and Bluetooth audio streaming

Reversing camera is standard on all upgraded V-Cross models

True audio experience with Live Surround Sound and 8 speakers with roof-mounted 'Exciter'

Passive Entry and Start System provides keyless locking and unlocking as well as an engine start/stop button (V-Cross models only)

Experience the ultimate comfort with leather-accented seats as standard on V-Cross models

**THE  
OTHER  
SIDE**

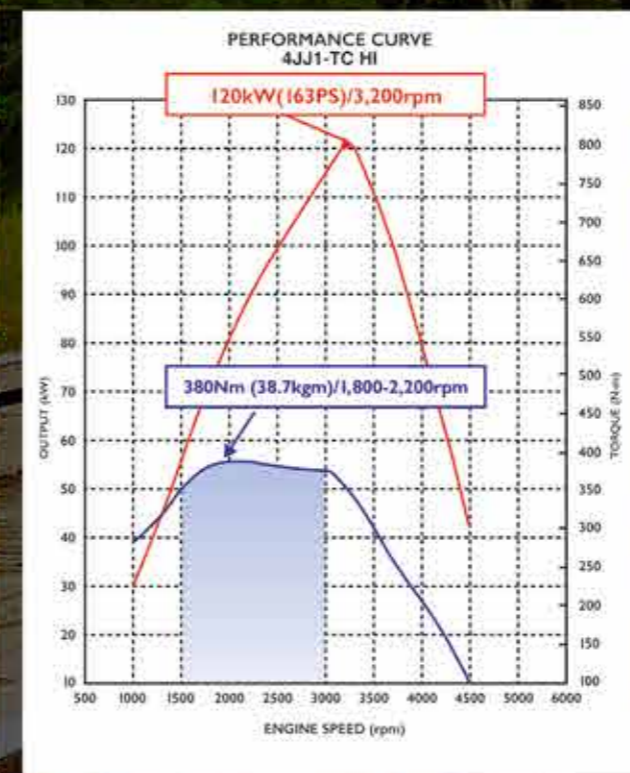

# POWER TO PERFORM

The Isuzu D-MAX range is powered by a highly refined 3-litre turbo diesel common rail engine which offers superior fuel efficiency thanks to low friction, fuel injection optimisation and a large front-mounted intercooler.

This advanced Euro2-compliant unit generates 163PS of power and a peak torque output of 380Nm at a low 2000rpm. Consistent levels of torque are delivered through the majority of the rev-range, aiding with drivability and making towing up to 3.5 tonnes a breeze.

Mated to a 5-speed 'Rev-Tronic' automatic transmission with sequential sports mode, the automatic transmission features an adaptive-learning function which constantly monitors brake and throttle applications. This allows the transmission to automatically select the most appropriate shift points and lock-up points depending on the driver's behaviour, the vehicle's load and speed. A smooth shift five-speed manual transmission is also available. It features a superior gear-lever pivot point, reducing gear-shift travel for a sportier feel.

Whether it's hauling big loads, powering through a work week, cruising through a weekend or going where others won't, the Isuzu D-MAX will get you there and beyond.

**Wide flat torque curve** ensures effortless driving, exceptional hill climbing, excellent off-road performance and outstanding fuel economy

Isuzu 4JJ1-TC Hi-Power turbo diesel engine offers a maximum torque output of 380Nm and 163PS of power

# REBEL WITHOUT A PAUSE

The Isuzu D-MAX will boldly take you places you've never before dared. You can comfortably tackle any environment with an electronic brake control that automatically engages the Hill Start Assist (HSA) to prevent vehicle rollback. Hill Descent Control (HDC) will give you the confidence to tackle any downhill terrain giving you maximum traction to make you roam like a rebel without a pause.

Large front brakes with ventilated disc

HSA prevents rollback on gradients above 5.7 degrees, while HDC provides maximum traction going downhill

"Terrain Command" 4WD system allows for simple shift from 2WD-high, 4WD-high and 4WD-low

Steel underbody guards, on sump and transfer case, on 4x4 models play it safe

Included on all D-MAX V-Cross models, Electronic Stability Control (ESC) detects if the vehicle is under or over steering

The cabin is constructed from high tensile tailor blank welded steel for unyielding strength and rigidity of the passenger safety cell

SRS dual airbags protect the driver and the front passenger in the event of a collision

Optimum Steering Control, when brakes are applied, with Anti-Lock Braking System (ABS), Electronic Brake-Force Distribution (EBD) and Brake-Assist (BA)

# ENJOY THE EXTRA MILE

For precise control over fuel injection timing and the quantity of fuel delivered, our common rail technology is unsurpassed. The Isuzu high pressure common rail technology ensures you burn minimal fuel while returning maximum performance to enjoy the extra mile.

Multi-Information Display of instant and average fuel consumption

Fuel efficient sequential shift 5-speed automatic transmission

Improved redesign of fuel injector pintle caps for optimum fuel efficiency

State-of-the-art aerodynamic exterior design, tested for minimal drag

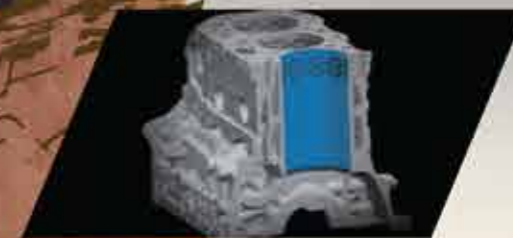

**STYLE AND  
COMFORT**

# THE MAGNIFICENT LEAGUE

# EXCEPTIONAL DURABLE PERFORMANCE

The Isuzu D-MAX comes from a lineage of the world's toughest, most reliable workhorses. Isuzu has created over 26 million diesel engines around the world resulting in D-MAX as a robust engine that won't let you down. Over 4,000,000km of strenuous testing in searing heat, heavy rain, hail and even snow was conducted in the development of the Isuzu D-MAX to ensure that this beast gives exceptional durable performance.

Advanced induction hardened liner technology eliminates the need for cylinder liners.

Steel timing chain (not poly belt)

5-speed automatic and manual transmissions with equal maximum torque output.

Sophisticated engine head, cam-to-valve roller bearings and variable swirl action gas flow.

Variable Geometry System (VGS) turbocharger provides lower emissions and higher engine output.

Large intercooler means greater thermo-cooling capacity.

High pressure common rail fuel injection system minimises the amount of fuel needed in the combustion process, providing superior fuel economy.

Comfort Suspension System consists of independent double wishbone and gas shock absorber front suspension. Over slung rear springs for improved off-road operation on all 4x4 models.

**TERRAIN  
SUPREMACY  
REDEFINED**

# FEATURES AND ACCESSORIES

Dual glove boxes and multiple storage compartments give plenty of room for your gear

Six-way electric driver's seat lets you find the perfect driving position at the touch of a button

Climate control air conditioning is standard on V-Cross models

Cargo Spoiler

Carpet Mat

Illuminate Rocker Plate (Blue)

Sports Bar, Crew Stainless Steel

Take the wheel in comfort in any D-MAX with a leather wrapped multifunctional control steering wheel with audio control and handsfree mobile

Optional wireless charging tray boosts your phone's battery

Optional rear-seat entertainment system

Rear Combi Lamp Garnish

Tail Gate Ornament

Roof Rail (Silver & Matte Black)
